SS NEWS

We are leader in Digital Transformation

We are a leader in digital transformation serving a global client base.

In this fast-changing world, driven increasingly by data, Atos brings together people, business and technology to create the firms of the future.

We are the Worldwide Information Technology Partner for the Olympic & Paralympic Games.

Atos is a Societas europaea (SE) company and we are listed on the Euronext Paris market.

We operate under the main brands Atos, Atos Consulting, Atos Worldgrid, Bull, Canopy, Unify and Worldline.

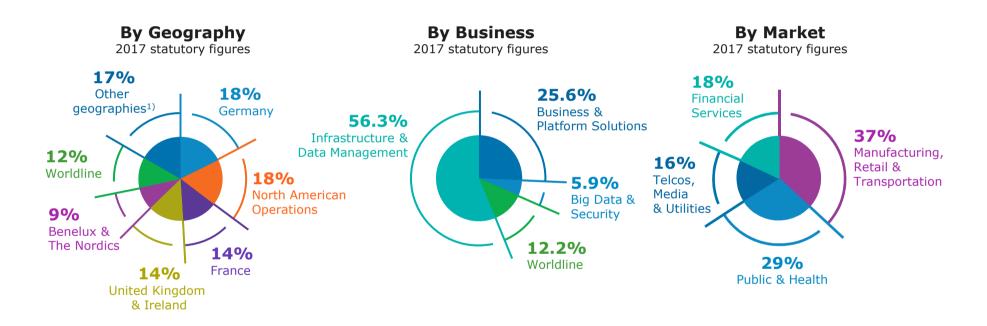

Key figures: a well-balanced positioning

Breakdown of revenue in 2017 (in percentage)

1) Including Iberia, Central & Eastern Europe, Asia Pacific, Middle East & Africa, South America, as well as Major Events

Our expertise to support Digital Transformation

Infrastructure & Data Management

We transform today's IT landscapes to future hybrid IT environments.

Business & Platform Solutions

We transform strategic approaches to technology, combining innovative solutions with established ones.

Big Data & Cybersecurity

We create competitive advantage for our clients from Big Data, and ensure data is delivered safely and securely to the right parties.

ናወን

Digital payments and e-Transactions

Through Worldline, we provide unrivalled leadership in expert solutions for the fastchanging payment and digital services market.

Unified Communication & Collaboration

With Unify, we combine voice, data and video, to help our customers benefit from a unique collaboration experience.

Example 3

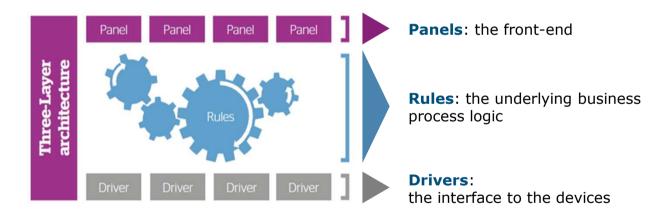

Trusted partner for your Digital Journey

Atos Broadcast Network Control System (BNCS)

Example 3

- Technology independent
- Versatile 3 layers architecture:
 - Control and monitor multiple devices from a single workstation or
 - Control and monitor one device from multiple workstations
 - Several drivers can run on one workstation

Atos BNCS is the result of 15 years' continual development and investment since it was first implemented for the BBC almost twenty years ago.

Atos is also the owner of all process maps and of a continually expanding library of device interfaces.
